When
the word,

...and sound become one,

...what was once spoken,
...becomes a song,

...the
language
of light.

HELIOS:FEMINA
The First K

I spent, what felt like another eternity.
...training for my victory.

Eventually, that light lead me back home,
...to this reality.

Ahem,

I know it's getting pretty late, so I...
There's more, *right*?
I mean, you *can't* leave us hanging like this.
Yeah like, what happened to Arret, and Zuka?

How can you fly?!
Please,

Rhea!
Alright,

What happened to your home planet?
Zeru?
...

A cataclysmic event took place on the planet.
One of Zeru's two moons was destroyed by an unknown, but powerful super civilization.
Why?

No one knows.
Not even Bebo.

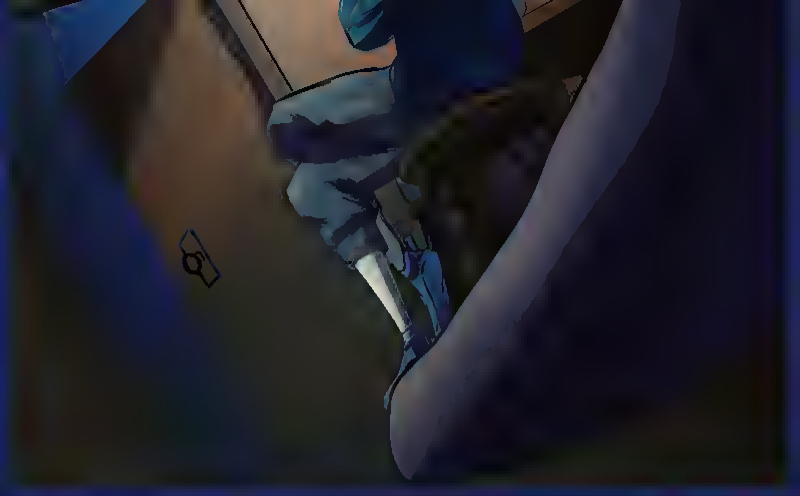
I'm sorry everyone.
Please excuse me.
I'm going to get some fresh air.

I'll be back.

Give her some space,
she's been through a lot.

Terra, shouldn't someone go check in on her?
Well?

Are you going to just stand there?
Or should I go?



Hmmm,
...I need to charge it.

Kazu,
...don't
worry.
You're not
bothering me
at all.

How,
...did you know?

I can sense your feelings better now,
...but,

...I'm still no mind reader,
...so you'll have to help me out, from time to time

I can see why you like it up here.

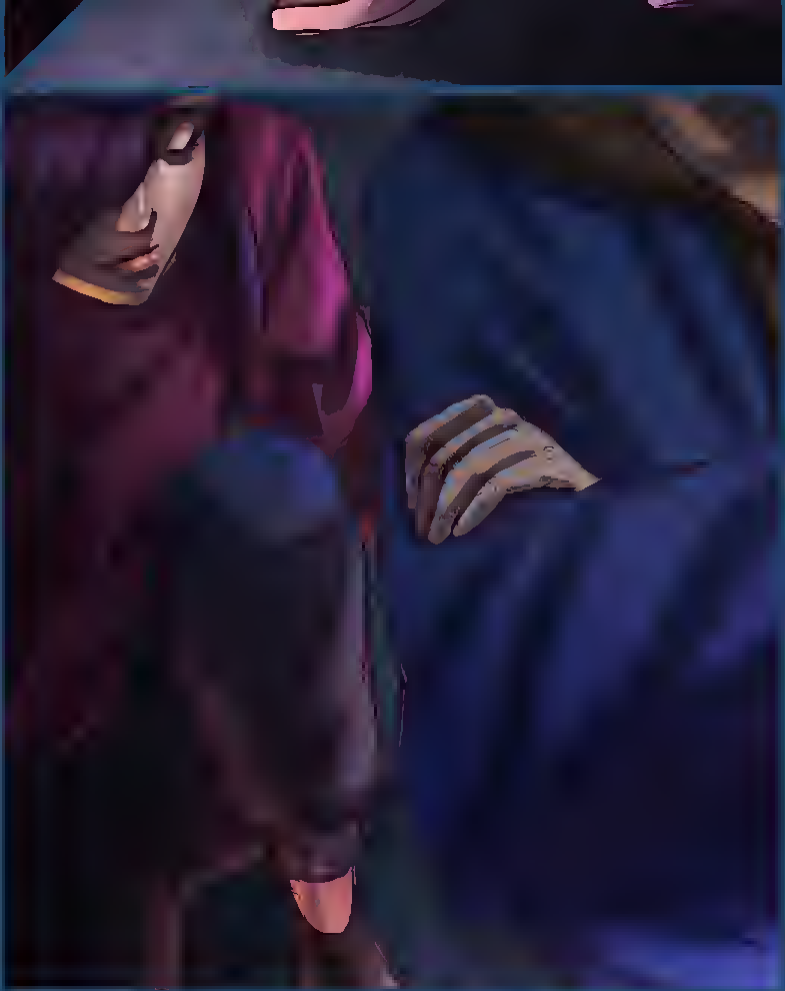
It's quite nice.
Yes, ...but, I'm usually alone.

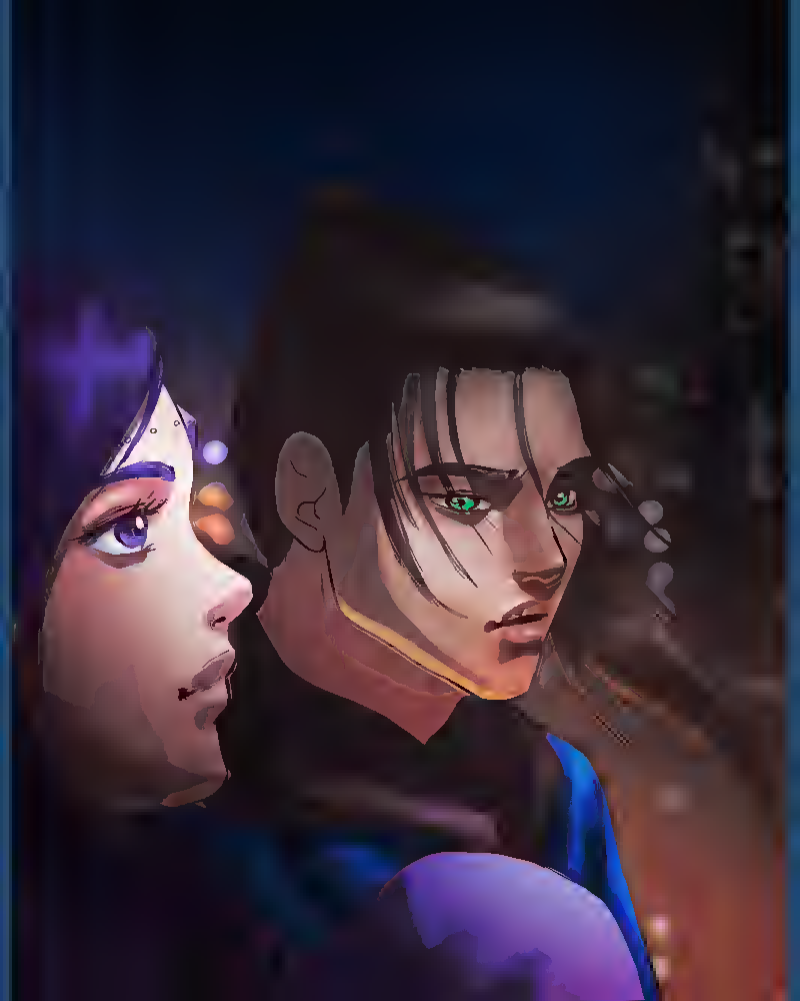
FFHHHHHHHH

My bad,
I get it, ...you prefer your own company,

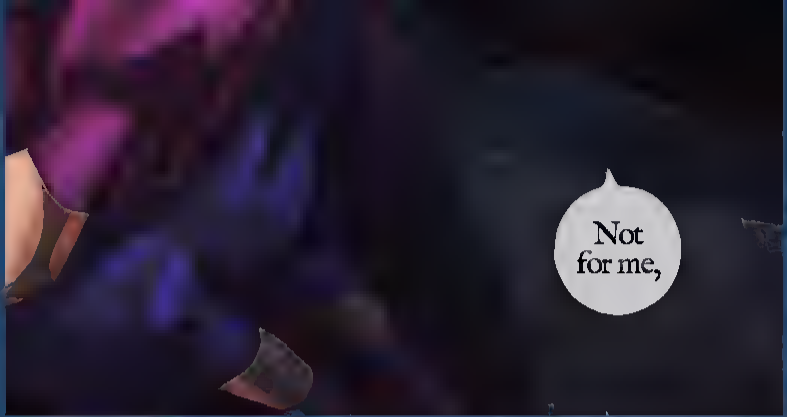
I...

...prefer, the right company.



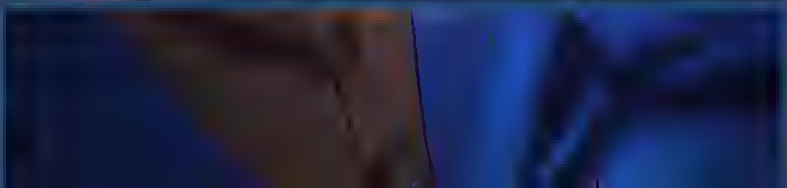


Back on the bridge.
...I was scared.

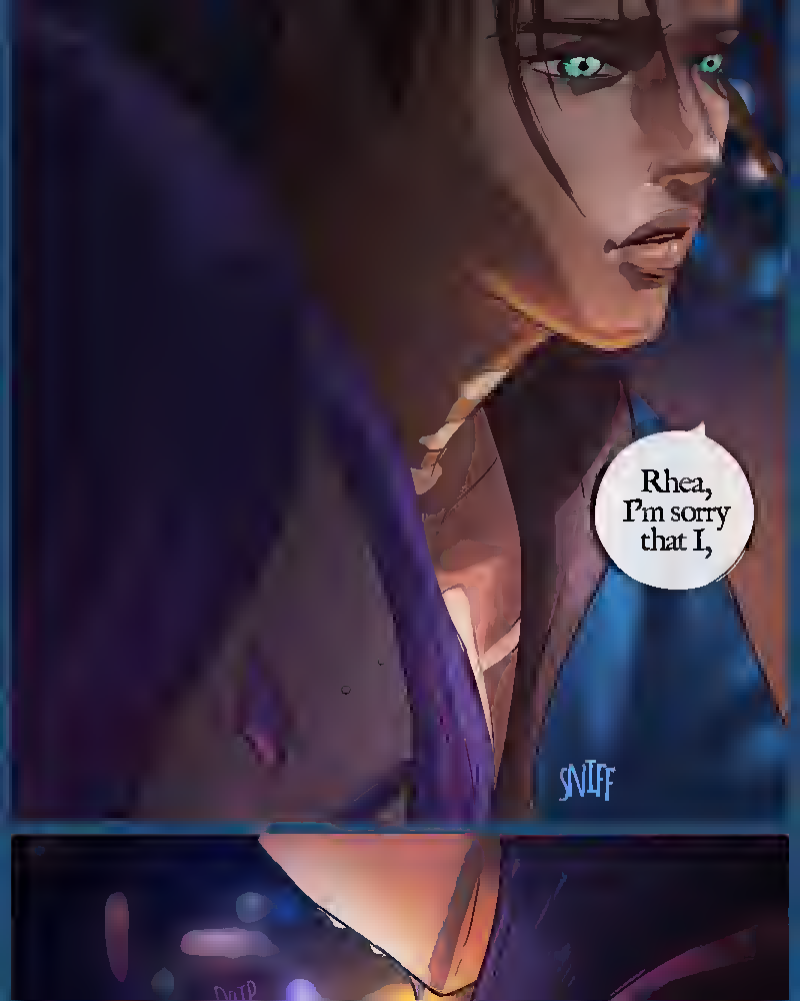


Not
for me,

...but
for you.



I didn't know what to do.
I felt so helpless.



Rhea, I'm sorry that I,

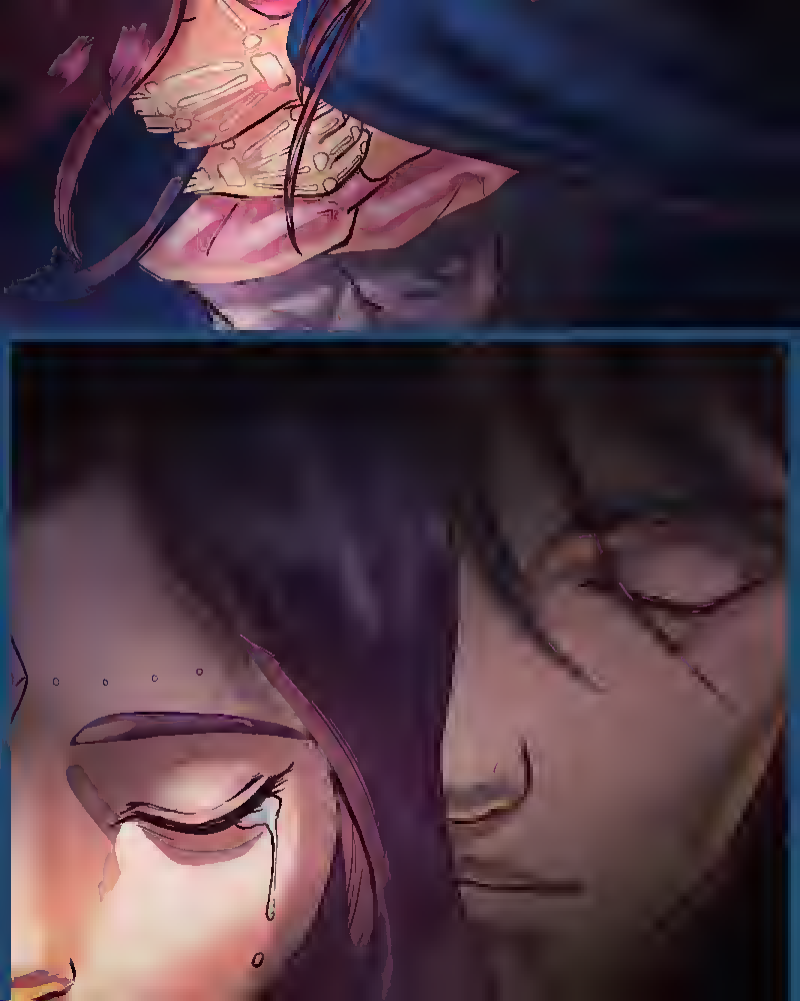
FSHA

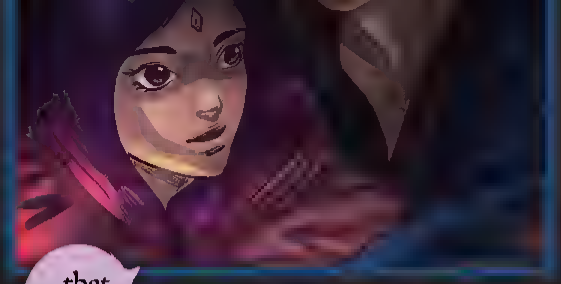


I'm sorry that I made you cry.

Don't be,

...they're
happy tears.

I hope one day, we can see Zeru.
Someone once told me,



...that hope,

...is a waking dream.

BRUSH

Does it scare you?
No.

Do *I* scare you?

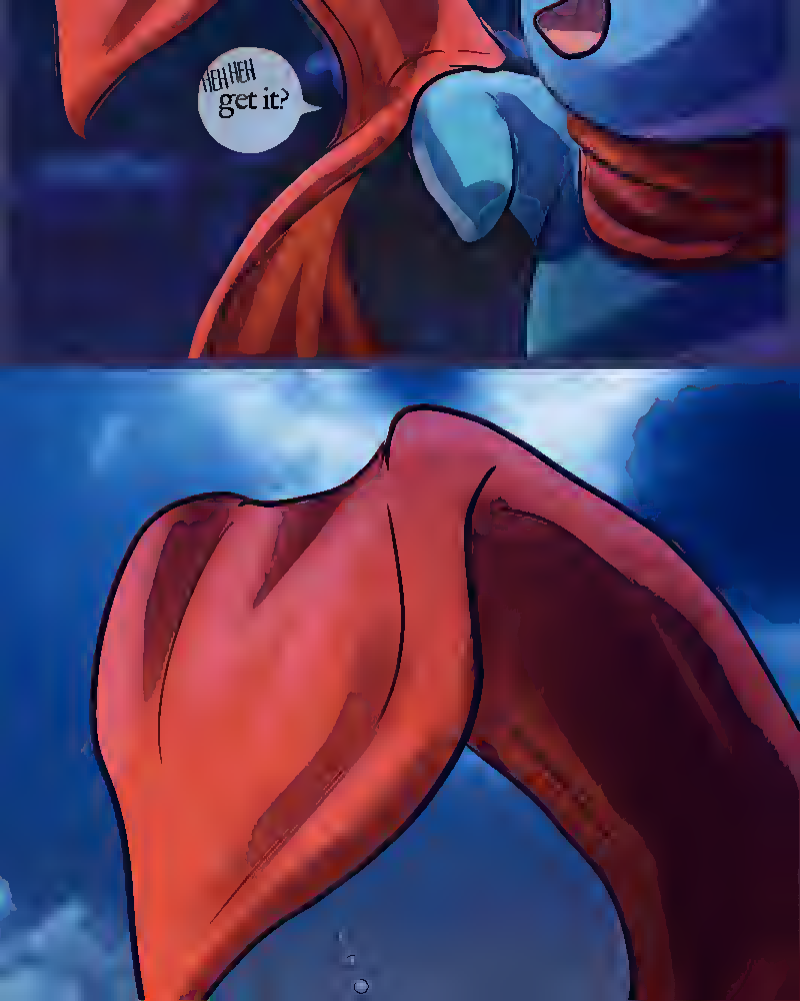
Yes.

Terra, this is incredible.

HAHA
oh we're just getting started,

...right Bebo?
Story of my lifetimes.

Ready to paint the town red, Red?



HEH HEH

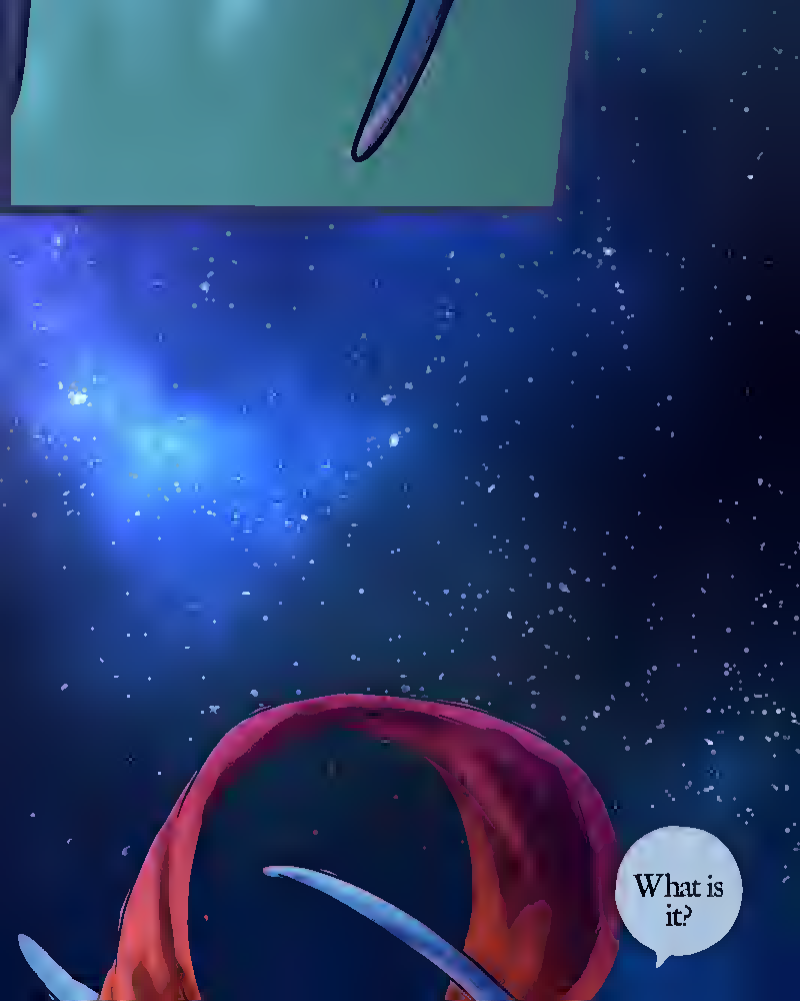
TUGS
Hey!



What is it?
